Corporate

The focus of Seddons' Corporate practice is quality and efficiency, a personal partner led offering, enabling us to cut through to the points that count for clients and deliver transactions in a cost-effective manner (charging West End rates rather than substantially big city law firm rates).

Our experience has seen us work with clients ranging from start-up businesses and successful entrepreneurs, through to established public and private companies, foreign multinationals and their UK subsidiaries, family businesses, private equity firms and venture capitalists.

We have extensive experience in delivering complex domestic and cross-border transactions for clients in M&A, joint ventures, equity investments and corporate reorganisations. Typical deal values range from between £10 million and £200 million, although we have advised on significantly higher value deals.
